

To whom it may concern:

I have known Anne Kaarid for the past 8 years as a colleague of the massage profession. As an RMT myself for the past 21 years, I feel Anne has all the great qualifications of a great massage therapist.

Her gentle, comforting nature combined with excellent intuitive hands-on makes anyone feel instantly relaxed when they receive a massage treatment. Anne always has displayed a calmness that welcomes anyone that walks through her door to greet her with a smile.

Anne was a wonderful help when I had an RMT student shadow me. She was able to give great feedback as a receiver, with her combined knowledge and understanding of skills through her previous massage and alternative healing practice.

Anne and I have traded several sessions of massage and I felt great with her techniques and hands-on treatment. I would always include her in my network of healing and massage professionals.

It has been a pleasure to know Anne, and feel she made a great decision in fully pursuing her full massage therapy registration. I wish Anne all the best with her future success with her ongoing learning and Massage Therapy.

Regards,

Candace Grant, RMT
