To Whom It May Concern;

It is with great pleasure that I write this letter of reference for Anne Kaarid. I have had the opportunity to be Anne's Clinical Supervisor in the Massage Therapy Program at triOS College for close to two years.

During this time, I have found Anne to be compassionate, dedicated and detailed oriented with her work. In her clinic internship, she was always very well received and respected by the clients she treated, and always maintained a warm and professional demeanour with both her clients and her peers.

Anne possesses the ultimate "can do" attitude while taking the initiative on tasks with a positive attitude. Her welcoming and empathetic personality enable her to work and interact effectively with a diverse group of people and situations. Anne is always eager to learn and willing to listen to constructive feedback.

It is without hesitation that I would recommend and support Anne in all of her future endeavors.

If you require any other information, please do not hesitate to contact me.

Kind regards,

Rachael Parkes RMT
triOS College Clinical Supervisor
