Constructive Feedback: Anne is very knowledgeable on the muscles to target for my treatment plan. She has really helped me feel better in only (2 sessions). She applies great pressure & also made me a great referral for physiotherapist. Thanks Anne, You Rock!

"Awesome once again beyond my expectations! Anne was amazing. I went in with what I thought no real super tight areas. She found many and worked out all the muscles from the top of my head to my hips. Thank you for fixing the popcorn sounds coming from my neck when I turn my head. I definitely have freer movement in my neck, back and hips. The final 10 minutes of scalp massage almost had me staying the night – she relaxed me so much. Thank you for a great massage after a terrible day at work."

"Great relaxing massage. Loved the work on my knees and head, especially today. She was very accommodating with my positioning as I was having a headache and need to take the pressure off!"
